recipes, and other surprises!

Flame of Hope Awards

This prestigious award recognizes businesses and individuals for their steadfast commitment and continued support to the Epilepsy Foundation of Northeastern New York. This year's honorees have helped our organization grow and thrive, while improving the quality of life for people with epilepsy. We are honored to present this year's awards to Greenwich Biosciences and Mr. Derrick Rumenapp.

Greenwich Biosciences has provided generous support to our conferences which has helped us continue our educational endeavors to the community. In addition, their support of our special events has helped fund programs and services to individuals affected by epilepsy, their family members, caregivers, and the community at large. We are also grateful for the volunteer service of Greenwich Biosciences on our Board of Directors and special event committees.

Mr. Derrick Rumenapp

Mr. Rumenapp has been a committed volunteer for the past 12 years, participating in our annual walk since the first walk was held in 2009. In addition to his participation, he has secured sponsorships, brought many new faces to the event, and organized many personal fundraising events to support our programs and services and raise awareness about epilepsy.

The Epilepsy Foundation of Northeastern New York is a non-profit organization serving those affected by epilepsy in our 22-county service area. Our mission is to lead the fight to overcome the challenges of living with epilepsy, and accelerate therapies to stop seizures, find cures, and save lives.
