

Warm Blanket Hugs was founded by Olivia who gained her wings October 2024 and is forever our 17 year old angel. We aren't sure how we'll carry on and we have BIG shoes to fill, but we know we can do it...if she went through what she went through with a smile on her face...so can we.

Olivia thrived throughout her struggles with her disease, showing others you can do big things when faced with adversity. When going through hardships, helping others can help you feel worthwhile and help you get through tough times. We are showing others they are not alone and people care.

In Olivia's honor, we have started [#BeLikeOlivia](#) where we share the beauty in the little things and by doing simple things for others. Olivia was kind, sweet, gave the best hugs, loved you no matter how you treated her... and we want others to Be Like Olivia.

### **How Warm Blanket Hugs Started**

During one of Olivia's many hospital stays due to her epilepsy/seizures, she received a homemade blanket that was warm, fuzzy and snuggled with it constantly. She continued to carry the blanket with her everywhere she went after leaving the hospital. There is nothing better than curling up with a warm blanket. They provide comfort and security, things people don't always have the opportunity to enjoy during certain situations.

Inspired by this experience, Olivia wanted others to feel that same comfort and support. She created Warm Blanket Hugs, a nonprofit dedicated to sharing homemade and store-bought blankets with people of all ages in need, all over the world. To Olivia, a blanket is a symbol of care, hope, and compassion.

Through Warm Blanket Hugs, we continue her mission, wrapping people in the warmth of a blanket and the love that Olivia poured into everything she did. Her legacy reminds us that even the simplest gestures can bring light to someone's darkest days.

# WARM BLANKET HUGS

PROVIDING LOVE THROUGH BLANKETS

IN A WORLD WHERE YOU CAN BE ANYTHING, BE KIND.
